

SUMMARY

Computer Science and Engineering student with a strong interest in software development, data structures, and machine learning. Skilled in Java, C, Python, HTML, and CSS, with hands-on experience building applications such as GUI-based software, games, and machine learning models. Passionate about problem-solving, learning new technologies, and developing innovative solutions through programming.

EXPERIENCE

- AI/ML Intern** Bengaluru, India
Merida Tech Minds | Python, Machine Learning, FastAPI, Data Analysis Jun 2026
 - Developed and trained **Machine Learning models** using Python and Scikit-learn for predictive analytics.
 - Performed data preprocessing, feature engineering, and model evaluation to improve prediction accuracy.
 - Built and tested **FastAPI**-based APIs and conducted exploratory data analysis using Pandas and Matplotlib.
- Web Development Intern** Madurai, India
RSUN Technology | HTML, CSS, JavaScript Dec 2025
 - Developed responsive web pages using **HTML**, **CSS**, and JavaScript with a focus on usability and design.
 - Designed and implemented an **Accessories Store webpage** featuring product displays and structured navigation.
 - Performed testing and debugging to ensure responsive layouts and smooth functionality across devices.

PROJECTS

- Project Management Platform**
Stack: Python, Django, React, MySQL
 - Developed a platform for project allocation, milestone tracking, reviews, evaluations, and progress monitoring.
 - Implemented role-based access for **Students, Mentors, and Faculty** to streamline project workflows.
 - Integrated **MySQL** for efficient storage and retrieval of project and evaluation data.
- Portfolio Website** [Portfolio](#) | [GitHub](#)
Stack: HTML, CSS, JavaScript
 - Designed and deployed a responsive portfolio website showcasing projects, skills, certifications, and achievements.
 - Implemented mobile-friendly layouts and structured navigation for improved user experience.
- Python Applications** [GitHub](#)
Stack: Python, Tkinter, Pygame, Machine Learning, Scikit-learn
 - Developed a GUI-based **Calculator Application** using Tkinter for basic arithmetic operations.
 - Built an interactive **Snake Game** using Pygame with score tracking and collision detection.
 - Created a **House Price Prediction Model** using Linear Regression with data preprocessing and model evaluation.

TECHNICAL SKILLS

- Programming Languages:** Java, Python, C, SQL
- Machine Learning:** Scikit-learn, Linear Regression, Model Building, Data Preprocessing
- Data Analysis:** Pandas, NumPy, Matplotlib
- Web Technologies:** HTML, CSS, JavaScript **Databases:** MySQL
- Tools Platforms:** Git, GitHub, VS Code

EDUCATION

- Velammal College of Engineering and Technology** Madurai, India
Bachelor of Engineering (B.E.) – Computer Science and Engineering — CGPA: 8.6 2024 – 2028
 - Relevant Coursework: Data Structures, Algorithms, Operating Systems, DBMS, Computer Networks

CERTIFICATIONS

- Programming in C – NPTEL** (2025)
- Java Programming Course – Udemy** (2026)
- Java Course Completion Certificate – Elysium Technologies, Madurai** (2026)
